

100 Doses \$1 FIRST GAME IN BOSTON

This only of Dr. Howard's Specific, in the usual liquid form or in the new and equally effective tablet form.

100 Doses \$1

GOT HER MILLIONAIRE.

Judge Rules as to Character of Chicago Steel King.

Chicago, April 24.—"I cannot pay the amount due on the lease now, for I have not got the money, but when I get the money or when I marry a kind-hearted, sweet-tempered millionaire, I will pay you."

In the opinion of Justice Tompkins, Orrin W. Potter, a Chicago steel magnate, whom the writer of the foregoing letter did marry, fits the specifications, "kind-hearted, sweet-tempered millionaire," according to the justice gave judgment against Mrs. Potter for \$400 for rent of the apartment which she occupied before she was recently married.

Mrs. Potter was then Mrs. Bell, in charge of the Palmer House hotel. Mr. Potter, who has grown sons and daughters, secretly married a few months ago in New York, greatly to the surprise of society.

Mrs. Potter did not appear in court in person, but her attorney was there to prosecute the claim. When the plaintiff demanded what was asked if he had any evidence that the money was due him, he produced the forgotten letter.

WANTS ALLEG TO QUIT.

But Letter Is Not Likely to Grant Alleg's Demand.

Wilmington, Del., April 24.—Edward Addicks was in this city Sunday. He demanded that Senator Allege resign in the interests of harmony in the Republican party of Delaware. Thus, he declared, would accommodate a special session of the legislature, which would end the warfare in clashing Addicks and a regular Republican in the two statehouses.

There is no possibility of Allege resigning, although it was reported at the time of his interview in 1904 that he would soon resign in favor of Addicks. Even if he should resign, Addicks could not be successful.

Addicks further declared that there would be a full and separate Union Republican ticket throughout the state in the November election. If this should be the case, the Democrats are likely to have a majority at the next session of the legislature, which will select two senators.

CRUSH OUT DISORDER.

French Army Corps Stationed in Local Mining Region.

Lens, France, April 24.—The military authorities yesterday began making wholesale arrests among the seditionary elements of the strikes, hoping thereby to crush the disorder. An army corps is now dispersed throughout the mining region and maintains order. No serious incidents were reported yesterday.

Moyer Case Advanced.

Washington, April 24.—The Supreme Court of the United States yesterday advanced the hearing of the habeas corpus cases of Moyer, Haywood and Pettibone, charged with complicity in the murder of former Governor Stearns, member of Linch, naming the first Tuesday in October as the date for their presentation.

MISS PARK OF ST. JOHNSBURY REPORTS HERSELF SAFE

Several Others Known in That Town Have Not Received Advice of Their Eastern Relations.

St. Johnsbury, April 24.—None has been received here from Alice Edie Park, daughter of Mr. and Mrs. Charles W. Park of this town, who was in San Francisco at the time of the earthquake. She is safe. She had been spending the winter with her son, Mrs. L. R. Parker, in Portland, Ore., and they left for San Francisco April 12, intending to leave there April 25 for New York on their return to this place.

No news has been received here as yet from Charles Webb Howard, president of the Spring Valley water works, who is a brother of Thomas M. Howard of this place, nor from Col. Alexander G. Hawes, Pacific manager of the New York Life insurance company, who has two sisters here. Mr. Howard is a native of Cabot.

Malter G. Cook, who was employed in the salesroom of the E. & T. Fairbanks company, is also a St. Johnsbury man, and has not yet been heard from.

Alfred Stanley of Plymouth, N. H., brother of H. A. and C. A. Stanley of this place, was at the Palace Hotel, and has not been heard from.

DEATH UNDER CAR.

Arthur Mulligan of Bennington Was the Victim.

Bennington, April 24.—Arthur Mulligan, aged 30 years, a resident of this village, was killed by an electric car at Walloomsac, just across the New York line, Sunday night. The young man probably was intoxicated. The body was not badly damaged, but was so tightly jammed under the frame that it was necessary to use jacks to lift the car from the rails sufficiently to remove it. Mulligan was unmarried and is survived by a mother, stepfather and brother.

The body of Patrick Boland, who had been missing from Hoosick Falls, N. Y., six weeks, was found in a pond in North Hoosick Sunday. Probably he fell into the water while intoxicated, as he had been drinking heavily when last seen.

We Regret to Announce.

The statement recently made in the English press that Miss Oiga Netherton will retire from the stage in eight years, and then devote herself to medicine, has elicited a number of interesting announcements as to their future plans from other eminent persons.

Little Tech is by no means tied to his profession by the inextricable bonds which people attribute to him. He has lived on 1910 as his year of emancipation, when he proposes to enter upon a course of study that shall fit him to succeed Prof. Ray Lankester at the Natural History Museum.

It is a mistake to suppose that Edmund Payne is wedded to the stage. At the age of 30 he intends to retire from the footlights and become a Tarrif Reform leader.

Mr. Chamberlain has divested his intention of withdrawing from active politics at the end of 1912, and writing books for children.

We have authority for stating that Leo Maxce does not intend to edit the National Review after 1910. In that year he proposes to emigrate to China and qualify for the Mandarinate.

Alfred Austin, whose new work, "The Door of Humanity," may shortly be destined for Mr. Freedman, has resolved not to ride any more after 1910. He will then content himself exclusively with pedestrian exercises.

The officers in the class were Policeman James H. Evans, Constable E. R. Thayer and Deputy Sheriff C. L. Knapp.

Other Games Postponed.

Rain and cold weather prevented other games in both ligures.

CHASED IN AUTOMOBILE.

But Five Young Men Got Away After All.

Burlington, April 25.—A race between five young men and an automobile maintained by bicyclists took place at Linden Street yesterday. The young men boarded a freight train in Bellows Falls and returned to obey Conductor Black's order to leave the train. A telephone message was sent to Burlington to have officers at the station to arrest them.

The train stopped a short distance north of the station, and the young men left. They saw the officers and let them a free-fora through a part of Main street to Linden Street, gaining such a lead that the officers resorted to an automobile, but notwithstanding this the men escaped into the woods.

The officers in the chase were Police

man James H. Evans, Constable E. R. Thayer and Deputy Sheriff C. L. Knapp.

GENERAL RELIEF.

Cities and Individuals Give Aid Most Freely.

Portland, Ore., April 24.—Two hundred and fifty destitute refugees from San Francisco have arrived here on a train over the Southern Pacific railroad. They ranged all the way from people in previously well-to-do circumstances to those who lost little or nothing, only because the rail nothing to lose. Some of the women were finely and even elegantly dressed, yet without a cent of money, or anything left but the clothes on their backs.

They were met by the general relief committee and hundreds of citizens and were soon away to find temporary homes in Portland.

SPELLING REFORM.

As a matter of fact the only spelling reform of any real influence is Father Time—Chicago News.

Carnegie is going to finance the spelling reform movement. If he'll contribute on the college men he'll have a good chance of dying poor.—Philadelphia North American.

Algeron Charles Swinburne characterizes the new spelling movement as a "monstrous, barbaric abomination."

When it comes to putting a general conviction into forcible English: the uncrowned sovereign of Great Britain leads the field.—New York Tribune.

GEMS OF THOUGHT.

If one does not hold still when struck by a bee or by fate, the sting remains behind in the wound.

Men, like their books, at their beginning and end have blank leaves—infancy and gray hairs old age.

Old people are long shadows, it is true and their evening sun lies coldly on the earth, but they all point to the morning.

Scatter flowers on the young man's coffin, ye blooming friends! Ye used to bring flowers on her birthday feasts. She is now celebrating the greatest of them for the bier too.

Man endures opposition and reproach more readily than we suppose, only in will not endure them when violent, even though they are deserved. Our hearts are flowers. They continue open to the gently falling dew, but close against the storm.—Jean Paul Richter.

EVERYTHING USEFUL

Nothing Ever Yet Created Without Purpose.

It all wonder why certain things never made, why certain animals or insects were allowed to live. And yet there is no doubt but that everything was created for some purpose, and as civilization advances such purposes are discovered.

Oil beat oil is surprising that everybody knows to have been a wise provision of Providence to be used as medicine in all wasting diseases.

The science has proven that the oil has no value either as a medicine or food—and while useful to the codfish only the medicinal elements which the oil contains are useful to man as a medicine. Therefore a separation must be effected.

This is exactly what has been done by my two eminent French chemists. After twenty years of experimenting they succeeded in separating the medicinal properties from the useless oil and grease and hawthorn to the world in a concentrated oil free of all the healing, strengthening and body-building properties of oil and grease, oil without oil or grease to upset the stomach and irritate its walls, or to do this harm.

Our druggists Rickett & Wells guarantee Vind to be a pure and potent medicine, without the oil, and not a patent medicine, and also guarantee that Vind will create a healthy appetite, cure stomach troubles, give strength and renewed vitality to weak, sickly children and to the aged, build up the skin down tired and debilitated, make the work strong, cure chronic coughs, colds, build up the complexion, etc., etc.

And great good crowd was present when the game opened, but on account of the cold the number gradually dwindled, until at the close of the game there were only a few shivering spectators.

The game on the part of the seminary boys was a remarkably good one, for the first of the season. The high school boys, however, played rather loosely.
